We're Moving!

No, I'm not selling my house, but I'm still going through a pretty big move. My client database of over 12 years is moving to a new customer relationship management (CRM) tool. If you know anything about company and customer databases, you know that it takes a lot of research, planning, data correction and patience to pull off a complete system migration. There are *thousands* of important contacts in there...including you!!!

Why should you care? Two reasons. First, if you get a bit more email from us this month, please forgive. I'm just trying to make sure that we stay in touch, But no one likes spam, least of all a productivity expert, and I promise we aren't deliberately trying to contact you more than usual!

Secondly, if you run a small business, you might not have realized that we offer CRM set up and management for our clients. Consultants, realtors, retailers, and even multi-level product business owners have turned to us over the years to help them stay in touch with their clients and customers. For us, it all pays off when we help you quantify saved costs or increased revenues. We're all about the bang for the buck. So if you are struggling with how to stay in touch, stay in front of clients, and lose the random sticky notes, please give us a call.

You can RSVP now for Saturday afternoon, July 29 for a fun DIY workshop at Habitat for Humanity Norristown. We'll each be creating a set of personalized photo coasters for yourself or to get you started on holiday gift giving. **PLUS** with registration you'll receive a 30% of coupon to use at the **Habitat for Humanity ReStore!**

Can't make it to that event? We're going to be hosting an on-site build workday on either October 6 or 27 in the Norristown area. If you'd like to join us, [please click here to let me know](#) which day you'd be able to join us on so we can pin down the date that works best.
