Consider This:

Celebrate National GET ORGANIZED Month — GO Month in January:

- Gather all contacts into a rolodex or address book to stay in touch.
- Toss any old, unopened mail and take back your desktop.
- Treat yourself to a new lamp, and light up the winter.
- Who doesn't love to shred? Stay safe.
- Reward yourself for getting organized!

Make it Beautiful

If you love your stuff but think it doesn't hang together well...

Redesign your Home

Good principles of design guide every organizing and redesign project::

- Start with furniture placement. Is the furniture arranged for good flow in the room, good storage, good seating, and focal point emphasis?
- Today's colors are actually colors, not just neutrals. Did you know that green is the new neutral? Paint, fabric and art can impact the color in your room.
- Lighting is probably the most overlooked accessory. Each seating area and special focal pieces should have their own lighting.
- Collections can make a big impact., grouped together by color, size, or theme, they can be a focal point or act like a larger piece of décor.
- Mix it up. Sometimes the “good stuff” and the casual furniture really look good together. One big room can be split into two smaller, cozy areas. Different wood tones give a space depth.
