Get Organized...GO Green

If you've been wondering how to responsibly release an old computer or two, NAPO and Goodwill Industries have the answer! We want to help you recycle and get organized at the same time. Bring it to one of two locations on March 29 & 30, get a receipt for your tax deductible donation, and get a free gift from NAPO. I will also pick up items during the month of March with any appointment, even a free organizing assessment! Call today to schedule. More details and FAQs at www.NAPO-GPC.org.

What is a designer look? Coordinated, but not matching. Depth of colors. Tells a story. Magic in the finishing touches. And always, feels like you.

How to Talk Like a Designer

1. Color is the best accessory, and making a commitment to color doesn't have to be scary. There are rules to guide you and rules to be broken. Come to a **Color Versus Clutter workshop** (see Café above) and learn how to go beyond beige.
2. Is it a trend or a style? Most of us can't name a specific style, we just know we like it when we see it. Trends have a life span of 1-5 years, while styles endure 10-15 years or more. Can you have both? Absolutely. Invest in quality pieces with great style, and stay current with trendy colors and easy-to-change accessories.
3. What's hot? If it isn't **GREEN**, it isn't in. Natural materials in everything from window treatments to accessories. Vintage stuff. Retro. Creative repurposing. Products with zero-carbon footprints. One-Day Room Redesigns are the ultimate green statement. Use what you already own to create a totally new look. I've used so many items destined for the trash in clients' rooms, and they always say the same thing, "How clever! I never would have thought of that. And it looks fabulous." For yourself or as a gift, Redesign for the home is a fresh start.

Simple Tip: Keep a style folder. Pictures and paint samples that make your heart sing lead you to beauty.
