Only Treats

You'd rather have a treat than a trick any day, right? This week, I have two for you.

The first is a free book! Organizing Your ***Kitchen*** with SORT and Succeed is the sequel to your favorite organizing book.

This week only, my subscribers can [click on the image](#) and download your Advance Review Copy in your preferred e-book format for free.

If you care to leave a review when it launches on 11/5, I'd be grateful. We timed this launch to help you get ready for all the kitchen-centric holidays just around the corner.

Also, the SCORE Women's Entrepreneurship conference is open to business owners AND those with an entrepreneurial mindset, even if you work for someone else. Know a young woman interested in business? This is a good networking event with over 100 women, and lunch included. Email me your registration, and I'll gift you either one of my current print books.

What a treat it would be to see you there.
